## 12 FEB, MON EXTEMPORE (VIII & IX)

### COMMUNICATION & PUBLIC SPEAKING

At this age, the futuristic endeavours of the students include learning the art to present their thoughts with spontaneity and clarity in front of any person, a group or a mass that gives them an edge to excel. Taking extempore as a medium, we thrive to nourish the young brains with the flexibility of thoughts and the confidence to speak on the spot in front of others exhibiting their knowledge, communication skills and presentation abilities. The students will embark on this impressive feat, competing to be the winners.

## 13 TO 17 FEB SPORTS MEET (I TO III)

### CONFIDENCE & SOCIAL SKILLS

The thrill of sports and the enchanting ambience adorning sportsmanship and the cheerful applause of the audience are set to gear up the players. Embracing the spirit of healthy competition in our students, Sports Meet will tickle the fervour among the students for a brilliant display of time management, discipline and team work, thereby aiding in the enhancement of social skills and overall development of the students. It is time to bring the practice and learning into effect raising the bar of fun and enthusiasm with the Sports Meet. The details will be shared through a separate notice.

## 14 FEB, WED BASANT PANCHAMI CELEBRATION (NUR TO VII)

### SOCIAL SKILLS

Signifying the harvest time of mustard crops, peace, prosperity and energy, the yellow colour embellishes the things and people as Goddess Saraswati is worshipped. As this auspicious day marks the beginning of spring season, we have taken the opportunity to impart the learning among the students by way of celebration. It will add to the social skills and enhance the knowledge of the students about our culture and traditions. The details are as under:

**NUR to III:** The students have to come in **Yellow attire** and can bring any **Yellow food item** of their choice in lunch.

**IV to VII:** **Topic Talk** will be taken and the students can bring any **Yellow Food Item** of their choice in lunch.

## 15 FEB, THU PRIZE DISTRIBUTION CEREMONY (X)

### LAST WORKING DAY FOR STUDENTS OF X & XII

## 16 FEB, FRI FUN WITH SHAPES (NUR)

### CONFIDENCE

From a ball to a box of chocolates, we are all surrounded by different shapes and interesting structures made with them. With shapes having been taught at this age, things are more related with the shapes they are in. The ability of recognising shapes and analysing how to fit things in place will take the front through this activity for the teeny weenies.

## PARACHUTE BLAST OFF (KG)

### SOCIAL SKILLS

The mathematical concept of reverse counting builds up the vigour for activation with a gush of energy. How about combining it with fun activity for the children to imbibe the concept thereby working on their coordination and joy? This activity will enhance their social skills as well in order to accomplish the parachute blast off.
